The **PADI Swim School** curriculum is built around the concept that there is a shared core of aquatic skills that every person needs to know to be proficient in the water. The core competencies provide the foundation that will enable students to learn correct swimming stroke technique by building upon what they already know. The curriculum is designed for student's ages 6 months old all the way to adult where correct technique is taught from the very beginning. Students will participate in learning activities that allow them to explore the water in a creative, safe, and comfortable environment!

Our Learn to Swim program is ideal for all ages and abilities, including students with special needs. The PADI Swim School has proved to produce results by our dedicated instructors. We currently hold lessons at Westin Hotel Golf and Spa, Crowne Plaza on Yas Island and Marina Square, Al Reem Island. The time available will depend upon the level of your student. Our Instructors will provide an assessment and advise the level for you or your children prior to registration.

Group lessons consists of no more than six children in a group and each sessions consists of eight 30 minute lessons. We offer private lesson which provides one-on-one focus for the student. Pre-school without the parents in the pool will have a smaller group size to ensure safety and comfort of learning. Our philosophy is to provide a comfortable environment for our students to learn in.

PADI Swim School is powered by award winning USA based Starfish Aquatic Institute, the largest and fastest growing water safety training agency in the USA and the world.
